STREAMLIGHT LIGHTING THE WAY FOR 50 YEARS

1973

1973 Streamlight founded by engineers who created solar simulators for NASA.

1980 LiteBox® lantern invented by Streamlight.

1989 Streamlight introduces the Survivor® line. Still the world's #1 right-angle rechargeable flashlight.

1998 1999 Vulcan®, Stylus® and Propolymer® series debut.

2001 Streamlight leads the market with innovative LED lighting products.

2003 Streamlight combines LED and Xenon lights in patented Twin-Task® series. New Tactical line premieres featuring Super High Flux LEDs. Fire Vulcan aids firefighter safety as the first lantern with LED tail lights.

1975 Rechargeable halogen lamp flashlight introduced by Streamlight.

MID 1980's Variety of miniature flashlights introduced.

1994 Stinger® series introduced – becomes the standard duty light for law enforcement. Streamlight creates the Scorpion®, lithium-powered, lightweight flashlight with rubber grip.

2000 Streamlight builds state-of-the-art manufacturing facility/corporate headquarters in Eagleville, PA.

2004 Streamlight introduces Strion®, the world's first ultra-compact rechargeable. At just 4.6 oz., it shines as bright as lights 5 times its size.

4

2005 FireBox® is introduced with bright blue LED tail lights that help firefighters be seen in heavy smoke.

2007 Dual-switch Stinger DS® debuts. Streamlight creates a million candela (Peak Beam Intensity) lantern – the HID LiteBox®, with a beam that reaches 1.5 miles. The Sidewinder® debuts as the most versatile military light, with multiple LEDs and varying brightness levels for each.

2009 Streamlight introduces the Strion® LED, creating the first lithium ion rechargeable gun-mounted and hand-held tactical light. The new PolyStinger® LED becomes our first rechargeable polymer body LED flashlight.

2017 The Vulcan® 180 is launched. Designed to burn brighter and run longer, it is an essential firefighting and utility tool. This rechargeable, waterproof lantern/scene light has a 180° tilting head to direct the light where needed.

2006 Streamlight introduces our first aluminum gun-mounted lights, TLR-1® & TLR-2®. LED versions of the Stinger® and Survivor® are created.

2008 C4® LED technology introduced to multiply the brightness of LEDs up to three times. Streamlight expands headquarters and manufacturing facilities with 75,000-ft. addition.

2014 Streamlight introduces the Portable Scene Light with a 72" extension pole designed to rapidly deploy and easily stow.

2016 Streamlight launches MULTI-FUEL technology that allows the user to swap standard lithium batteries with our SL-B26 USB rechargeable battery pack to turn their ProTac® 2L-X and ProTac® HL-X into rechargeable lighting systems.

2020 The Stinger® 2020 is the next evolution in high-performance flashlights - produce 2,000 lumens. Its anti-roll design is ergonomically shaped for a sure grip. It features dual power switches and an intuitive mode selector switch for ease of use.

THE NEXT
EVOLUTION
IN HIGH-PERFORMANCE
FLASHLIGHTS

STINGER® 2020

The next evolution in high-performance, work-ready flashlights produces 2,000 lumens. Its aluminum alloy body with textured side panels and anti-roll design is ergonomically shaped for a sure grip. It features dual power switches and an intuitive mode selector switch for ease of use. Select high for brightest light or low for extended run time. Long-lasting SL-B26® USB rechargeable battery packs offer multiple charging options using existing Stinger smart chargers and bank chargers to charge inside the light; use a dual USB cord to charge the battery pack outside the light or a Li-ion battery bank charger to charge multiple batteries at once. IPX7 waterproof to 1m submersion, corrosion-resistant sealed glass lens.

STRION LED HL® // STRION DS® HL

The Strion LED HL provides a high lumen beam with maximum illumination. Its wide beam pattern gives you a bright flood light that will light up the area around you. IPX4 water-resistant. Fits long gun mounts.

STRION LED HL
BATTERY: Lithium ion
SIZE: 5.90" x 1.25" x .95"
(14.99 x 3.18 x 2.41 cm)
WEIGHT: 5.2 oz (148g)
COLOR: Black

STRION DS HL
BATTERY: Lithium ion
SIZE: 6.33" x 1.25" x .95"
(16.08 x 3.18 x 2.41 cm)
WEIGHT: 5.4 oz (153g)
COLOR: Black

STRION HL	HIGH	MEDIUM	LOW
LUMENS:	615	320	160
CANDELA:	12,000	6,000	3,000
DISTANCE:	219m	155m	110m
RUN TIME:	1.25h	2.5h	4.5h
STROBE RUNS 3 HOURS			

With ((STROBE))

WORKLIGHTS
SERIES //

WORKLIGHT SPECIALISTS
IN THE GARAGE, ON THE WORK TRUCK OR IN THE FIELD,
STREAMLIGHT DELIVERS LIGHT WHERE YOU NEED IT.

At Streamlight we innovate lighting solutions that make sense.
We build lighting tools that put function right alongside performance
and convenience. That's exactly what our family of worklights is
designed to deliver. With innovative charging systems and light
delivery, we make it easier for you to get the job done.

// COLOR-RITE TECHNOLOGY®

// WHAT IS COLOR-RITE TECHNOLOGY?

Color-Rite Technology is based on the Color Rendering Index (CRI) -- a scale from 0-100 that indicates how a light source reflects color variations as they appear to the human eye. The higher the CRI, the more vibrant the colors appear. On the scale, lights that measure 90+ are considered "high" CRI lights and are critical for tasks requiring the most accurate color discrimination. A perfect 100 would enable us to see colors as they appear in natural sunlight.

// WHY STREAMLIGHT COLOR-RITE TECHNOLOGY?

Flashlights equipped with Streamlight's proprietary Color-Rite Technology allow users to see the color spectrum as they would in natural light. While a standard high-lumen LED light produces an ultra-bright white beam that is needed in many applications, it prevents seeing subtle color differences in, for example, auto body paint colors or electrical wiring. In contrast, a high CRI light provides a softer, warmer beam to prevent color "washout," allowing the user to see specific colors or imperfections and subtle details, regardless of the task.

// COLOR-RITE® APPLICATIONS FOR EVERY SITUATION

Streamlight offers a family of Color-Rite® lights for situations that require detailed inspections or color differentiation. For markets as diverse as automotive, industrial, law enforcement, military and even outdoor recreation, we have developed high CRI lights with Color-Rite Technology® for a wide variety of tasks that require exacting attention to detail. From repairing electrical wires to inspecting paint finishes or examining forensic evidence, count on Streamlight's Color-Rite® products help get the job done efficiently and safely. Our family of Color-Rite® products include the following:

STINGER® COLOR-RITE®

Rechargeable, warm white (3,000K) 90 CRI LED with Streamlight's Color-Rite Technology®

DUALIE® 3AA COLOR-RITE®

Intrinsically safe multi-function dual beam flashlight with a cool white LED and a warm white (4,000K) 90 CRI LED with Streamlight's Color-Rite Technology®

STINGER SWITCHBLADE®

Five lights in one:
Drop Light | Hands-Free | White Light | Color-Rite® Light (4,000K) | UV Light

STRION SWITCHBLADE®

Five lights in one:
Drop Light | Hands-Free | White Light | Color-Rite® Light (4,000K) | UV Light

SYCLONE®

Ultra-compact work light with a cool white LED and a warm white (4,000K) 90 CRI LED with Streamlight's Color-Rite Technology®

FLIPMATE®

Compact work light with cool white LEDs and warm white (4,000K) 90 CRI LEDs with Streamlight's Color-Rite Technology® - each with high and low modes

// A LIGHT FOR EVERY SITUATION

// COLOR-RITE® APPLICATIONS BY MARKET

LAW ENFORCEMENT/MILITARY

- **Improve tracking in low-light conditions.** High CRI lights like the Stinger® Color-Rite® help border patrol and other law enforcement agencies reveal subtle details of tracks and other markings that white LEDs with their bright "hot spots" can miss.

- **Detect trace evidence.** Forensic teams can more clearly spot fingerprints, fibers and other trace evidence on glass and other slick surfaces with high CRI lights such as the Stinger® Color-Rite®.

- **Enhance visualization.** High CRI lights can help cut through murky lake or ocean water, thick smoke or fog, and even heavy dust when pursuing vehicles in rough terrain.

AUTOMOTIVE

- **Match and identify colors.** The Dualie® 3AA Color-Rite®, FlipMate®, Stinger Switchblade®, Syclone® and Strion Switchblade® are ideal for color matching and identifying body imperfections before and after paint repairs.

- **Identify defects.** Paint defects such as swirl marks and color sanding scratches are easily identifiable with high CRI LEDs.

- **Distinguish colors.** When troubleshooting electrical short circuits or other motor vehicle repairs, high CRI lights assist in differentiating colored wires in hard-to-see areas under a hood or carriage.

- **Reduce glare when working in tight spaces.** Because high CRI LEDs reflect back less light than bright white LEDs, mechanics can see greater detail when working in dark, hard-to-reach places underneath a car or under the hood.

INDUSTRIAL

- **Differentiate wire colors in electrical panels.** In plants and other facilities, high CRI lights like the Dualie® 3AA Color-Rite®, FlipMate® and Syclone® provide better color contrast of intricate wires in electrical cabinets, helping technicians to work more efficiently.

- **Spot imperfections.** High CRI lights allow for contrast of color to identify imperfections in finish inspections of products, including parts.

- **Reduce eye fatigue.** The soft lighting of high CRI LEDs reduces eye strain and fatigue for many users.

FIRE/RESCUE/EMS

- When responding to fires, accidents or other events under low light conditions, high CRI area lights such as the Dualie® 3AA Color-Rite®, Stinger Switchblade®, and Stinger® Color-Rite® can be essential tools, permitting first responders to **see the color spectrum as they would in natural daylight.**

- High CRI lights also allow investigators to **see specific colors, imperfections and subtle details** when examining fire or accident scenes and gathering evidence.

OUTDOOR RECREATION

- **Identify blood trails.** State-of-the-art blood trailing technology in high CRI lights, such as the Stinger® Color-Rite®, reduces certain colors in the spectrum to better amplify blood trails.

- **Visualize in low-light conditions.** Hikers and other outdoor enthusiasts use high CRI lights like the Dualie® 3AA Color-Rite® to better see obstacles when navigating trails at night and under other low-light conditions.

THE STINGER SWITCHBLADE
SPENDS AS MUCH TIME
UNDER THE CAR,
ON THE WALL,
AND COVERED
IN GREASE AS YOU
A PERFECT MATCH

28
STINGER SWITCHBLADE®

The Stinger Switchblade rechargeable area light is five lights in one: a droplight, hands-free light, UV light, bright white light and a warm white (4000K) high CRI light with Streamlight's Color-Rite Technology®. The blade of the Switchblade can rotate 180° on the body. Soft detents will hold the blade in your desired position, and the light will stand on its tail with the light bar in any position. There are multiple ways to hook and hang the light. Use the hooks on the base plate or the retractable hook for many hanging options. The weighted base also includes magnets that will hold the light (in any orientation) to provide task-specific illumination.

180° rotating light bar aims the beam where you need it.

STINGER SWITCHBLADE
BATTERY: Lithium Ion
FOLDED SIZE: 9.80" x 1.62" x 1.40" (24.89 x 4.11 x 3.56 cm)
EXTENDED LENGTH: 17.0" (43.18 cm)
WEIGHT: 17.1 oz (485g)
COLOR: Red

ITEM #	DESCRIPTION
76801	STINGER SWITCHBLADE - 120V AC - 1 HOLDER - RED
76800	STINGER SWITCHBLADE - WITH USB CORD - RED

HANDS-FREE APPLICATIONS:
TAIL-END MAGNET. STOWABLE HANG HOOK AND STABLE FOOT

Color-Rite®

	COOL WHITE	HIGH CRI (90) WARMWHITE	UV LED
LUMENS:	800	600	500 mW
RUN TIME:	3.75h	3.75h	15h
COLOR TEMPERATURE: 4,000K			

DOUBLE-SIDED LIGHT BAR:

1.) 90 CRI LEDs - Color-Rite Technology - warm white light (4000K) allows you to distinguish between similar colors - for paint matching, checking wires, etc.

2.) Cool white LEDs for bright, white light

3.) UV LED for leak detection

DUAL CHARGING OPTIONS:
CHARGE USING EXISTING STINGER CHARGERS OR CHARGE VIA USB SOURCE

ACCESSORIES

BEARTRAP®

Inspect, identify and repair with the multi-function BearTrap worklight. High power with big performance. It produces bright white light in both spot and flood modes.

Go hands-free - it clamps virtually anywhere or stands on its own, allowing you to illuminate hard-to-get-to spaces like under the dash; also features a magnetic base and stowable hook.

Tough thermoplastic construction. Chemical-resistant lens - withstands most common automotive chemicals.
IPX4 water resistant; 1m impact resistance tested

LIGHT UP THE WORLD
ANYWHERE YOU WANT

PORTABLE SCENE LIGHT
PORTABLE SCENE LIGHT EXT

The Portable Scene Light provides rapid deployment on site, and it goes anywhere. With its 90° swivel neck, it's easy to shine light into the most out-of-the-way place. The head extends to 72" within seconds. It provides 3 levels of lighting and substantial run time to last through several shifts, even days. The unique diffuser lets you select a flood or spot beam in all three levels. It's designed to adapt to tight spaces, but rugged enough to be stable in wide open terrain or steps. The regulated light provides consistent output throughout the life of the battery. It's an indispensable tool for first responders, construction crews, and utility workers.

Portable Scene Light
packs to a compact size for easy storage (22.5 in.; 57.2 cm)

Portable Scene Light EXT
packs to a compact size for easy storage (25.5 in.; 64.8 cm)

Special Features:
- Full deployment in 30 seconds
- Designed to resist 40mph wind continuous in all directions with head fully extended
- Unlimited run time using AC/DC power source
- IP67 rated; dust-tight and
  WATERPROOF TO 1M FOR 30 MINUTES
- Stabilization legs provide balance on uneven surfaces

Extends to full height with the stabilization legs fully deployed and locked in less than 30 seconds

Portable Scene Light EXT: pole extends to 84" (213.36 cm)

Portable Scene Light: pole extends to 72" (182.88cm)

Cord is built into the pole avoiding snags during deployment

Balanced design; lead acid batteries provide ballast and stability

PORTABLE SCENE LIGHT II : TURN TO A
HIGHER POWER

- STACKABLE FOR "LIGHT TOWER" CAPABILITY
- 360-DEGREE ROTATING HEAD
- PORTABLE, CORDLESS AND LIGHTWEIGHT
- HIGH-QUALITY, VIRTUALLY INDESTRUCTIBLE ALLOY STEEL FRAME
- WATERPROOF
- 10,000 LUMENS

PORTABLE SCENE LIGHT II

Turn to a higher power with the Portable Scene Light II. 18 LEDs produce 10,000 lumens to light up the entire scene. With zero deployment time, it features a compact footprint, 360° rotating head and it's stackable for "light tower" capability with multi-level lighting. High-impact thermoplastic housing mounted in a virtually indestructible alloy steel frame. Hooked feet for hanging over doors, guard rails, fences, etc. The perfect scene light for marking exits, post fire investigation, fire ground clean-up, mobile triage center lighting, etc.

PORTABLE SCENE LIGHT II
BATTERY: Lithium-ion Rechargeable

VULCAN® 180 HAZ-LO®

Developed for use in hazardous locations on a portable scene light platform the Class 1, Div. 1 safety rated Vulcan 180 is lightweight and rechargeable.

Combine the three extreme bright white LEDs with cordless operation to eliminate trip hazards while two ultra-bright blue taillights provide visibility in thick smoke.

Use its 180° articulating head to target the light where needed. A large handle enables smooth hand-offs even with gloves. IP65 rated, dust-tight and water resistant; 2m impact resistance tested.

180° articulating head
Locking mechanism keeps head in place

Handle clearance accommodates heavy gloves and makes hand-offs easier

Battery status/ charge indicator

Taillight LEDs ensure you can be seen even from behind
VULCAN CLUTCH® // NEW

The Vulcan Clutch, with its downward-angled head is designed to illuminate your path so you can navigate to your destination safely and efficiently. Once on-site, clamp it virtually anywhere and articulate the head to direct the beam where you need it. Flash mode for use as an exit marker or warning beacon.

Three white LEDs produce extreme brightness and two ultra-bright blue taillight LEDs provide visibility in thick smoke. A large handle enables smooth handoffs even with gloves. IPX7; waterproof to 1m for 30 minutes. Uses the same mounting rack as the Vulcan 180.

THE WAYPOINT FAMILY
FEATURES
DUALIE
FUNCTIONALITY

Push button switch with momentary and click on operation. The rotary switch selects the main/front beam, bottom/area light, or both.

LED bottom facing flood light can be used individually or with the forward facing spot beam.

Integrated stand and D-ring for hands-free lighting.

DUALIE WAYPOINT®

The Dualie Waypoint features dual beam technology with a forward facing spot beam and a bottom facing flood light that can be used individually or at the same time. See what's ahead of you and right in front of your feet. Its bright light, which shines both ahead of you and downward, helps you avoid slips, trips and falls. Multiple hands-free uses - hang it over a door, stand it on its kickstand or hang it with integrated D-ring. Its ergonomic handle hooks over doors, pipes, ladder rungs, etc., for hands-free use. IPX7 waterproof to 1m, making it ideal for wet applications.

SUPER SIEGE THE HARDEST WORKING SIEGE LANTERN

SUPER SIEGE®

The Super Siege rechargeable scene light/work lantern provides 360° of bright light that illuminates an entire scene. A rechargeable lithium ion battery supplies the power to charge your Streamlight flashlights, smartphones and tablets. Remove the globe cover and hang the Super Siege upside down by its D-ring for large area lighting needs. Use the Glare Guard™ to shield light from 1/2 the globe for up-close task lighting. Set it to SOS mode for emergency situations. Working in a grueling environment? No problem! Its rubber base keeps it stable on slippery or uneven surfaces, and a watertight storage compartment keeps small items dry. IPX7 waterproof to 1m. It floats.

SIEGE® X USB

This 2-in-1 lantern/flashlight combo provides 360° of light to illuminate a large area or a focused beam to light your path. Features three lighting modes: smooth lantern lighting; a red LED to preserve night vision and a front spot light for use as a handheld flashlight. It accepts the Streamlight SL-B26® protected Li-Ion USB rechargeable battery pack or two CR123A lithium batteries. IPX7 waterproof to 1m submersion. A Its ergonomic handle can also be used as a hang hook or use the D-ring in the base for hands-free lighting needs.

SIEGE X USB

COLOR: Coyote

ITEM #	DESCRIPTION
44956	SIEGE X USB - WITH SL-B26 BATTERY PACK — COYOTE

THE SIEGE®

The Siege is brighter, more durable, and much more versatile than other emergency/camping lanterns. It's bright enough to light up a whole campsite. It runs for over 30 hours on high and over 12 days on low! Its handle and D-rings allow you to hang it or clip it almost anywhere, upright or inverted. It has 3 white light settings, a red light for softer, less intense light, and an SOS mode. Remove the top for brighter light. Battery indicator flashes to alert you to low battery. Waterproof to 1m; it floats.

THE SIEGE
BATTERY: (3) "D" alkaline
SIZE: 3.8" x 7.25" (9.65 x 18.41 cm)

VANTAGE SERIES
THE VERSATILE SOLUTION TO FIREFIGHTER'S HANDS-FREE LIGHTING NEEDS
VANTAGE® 180 X USB // VANTAGE® 180 X

This multi-fuel, multi-function light is the most versatile rechargeable firefighter's light. It's a helmet mounted light, right angle light and a hand-held flashlight. The Vantage 180 X USB is a rechargeable system that includes a Streamlight SL-B26® protected Li-Ion USB rechargeable battery pack with integrated USB port. The Vantage 180 X includes two CR123 batteries.

Easily attaches above or below the brim of most helmets providing a bright main white LED and blue safety taillight. Quickly detaches for hand-held and clip-on right angle light with white taillight and downcast light to see what's at your feet. IPX7 waterproof.

	HIGH	LOW
LUMENS:	250	100

// **DIFFERENT LIGHTS FOR DIFFERENT HAZARDOUS LOCATIONS.**

The National Electric Code (NEC) defines hazardous locations by "class" and "division." There are three classes:

CLASS I locations are made hazardous by the presence of flammable gases, liquids or vapors.

CLASS II locations are hazardous because combustible dusts are present.

CLASS III locations contain easily ignitable fibers or flyings.

The "Division" designation refers to the likelihood that ignitable concentrations of flammable materials are present. There are two divisions:

DIVISION 1 designates an environment where ignitable concentrations of flammable gases, liquids, vapors or dusts can exist some of the time or all of the time under normal operating conditions, or where easily ignitable fibers and flyings are manufactured, handled or used.

DIVISION 2 locations are where ignitable concentrations are not likely to exist under normal operating conditions or where Class 3 materials are stored or handled.

Hazardous classes are further defined by "groups" based on the physical properties of their combustible materials. These groups include (but are not limited to):
GROUP A Acetylene

GROUP B Hydrogen

GROUP C Ethylene, carbon monoxide

GROUP D Propane, gasoline, naphtha, benzene, butane, ethyl alcohol, acetone, methane
GROUP E Metals including aluminum, magnesium (Div. 1 only)

GROUP F Carbonaceous dusts including coal, carbon black, coke

GROUP G Dusts not included in E and F including wood, plastics, flour, starch or grain dusts

STREAMLIGHT GIVES YOU MORE SAFETY-RATED LIGHTS FOR MORE OPTIONS IN HAZARDOUS LOCATIONS.

HAZ-LO DIVISION 1 LIGHTING ®

Streamlight flashlights are tested and certified by the world's leading independent laboratories — including Underwriters Laboratories, ATEX, Demko, and the Mine Safety and Health Administration (MSHA). This testing is your assurance that the Streamlight flashlight you choose will be safe in the environment(s) in which you'll be using it.

NFPA® · Ex · CE · SGS · IEC · IECEx · UL · MSHA United States Department of Labor Mine Safety and Health Administration · c UL us LISTED · ETL CLASSIFIED

// STREAMLIGHT'S HAZ-LO LIGHTS - 2 STANDARDS PROVIDE DIFFERENT PATHS TO THE SAME RESULT: A DIVISION 1 RATING!

When working in a Division 1 area, we expect explosive atmospheres to be present. Streamlight's HAZ-LO product line is suitable for use in Division 1 areas. Streamlight uses different protection standards and testing at Nationally Recognized Test Labs (NRTL) to achieve the Division 1 rating that is common to all Streamlight HAZ-LO Lighting. This is the best possible performance while ensuring that your flashlight will not become an ignition source. ANSI/UL 783 is the specific standard for flashlights used in hazardous locations. ANSI/UL 913 is the intrinsically safe standard for general electronic equipment. While either standard can direct certification to Division 1 level, it is important to note Class, Group and Temperature code requirements to select the correct flashlight for specific applications.

Scan or click to watch our video:
"You Bet Your Light On It: Safety Ratings Explained"

// WHY ARE SAFETY RATINGS IMPORTANT?

There are several types of locations in which it can be extremely dangerous to use any light that has not been specifically designed — and approved — for that kind of location. These are areas where fire or explosion hazards may exist due to the presence of flammable gases, liquids, vapors, dusts, or ignitable fibers or flyings. If you will be using a flashlight in any potentially hazardous location, it is critical that your light be safety-rated for that specific kind of environment.

// ATEX RATINGS

Streamlight also offers safety-rated lights that comply with the European Union (EU) Directive 2014/34/EU (ATEX) for products intended for use in potentially explosive atmospheres within the EU member countries. Please visit our website, streamlight.com for more information on ATEX-rated products. We also have a catalog of ATEX-rated products available upon request.

THE DUALIE® FAMILY OF LIGHTS
DIV. 1, INTRINSICALLY SAFE,
DUAL BEAMS,
HANDS-FREE & INCREDIBLY VERSATILE

The Dualie design allows you to see what's ahead of you and right in front of your feet. Its bright light, which shines both ahead of you and downward, helps you avoid slips, trips and falls.
The Dualie Laser features a simultaneous spot beam and laser pointer allowing you to illuminate the work area and pinpoint out-of-reach objects.

DUALIE® RECHARGEABLE

The Dualie® Rechargeable features a lithium ion battery and dual beams — forward facing LED spot beam and a side facing LED flood light that can be used individually or at the same time for enhanced safety. Integrated, non-protruding spring loaded belt clip contained within body outline. Optional magnetic clip for hands-free use.

DUALIE® 3AA

One light, two beams: choose one spot beam or one flood light or both. The 3AA Dualie® provides two types of illumination for multi-directional lighting and special uses. Intuitive activation allows you to use either beam or both at the same time. This intrinsically safe flashlight allows you to see your entire work area and helps you avoid slips, trips, and falls. Optional magnetic clip for hands-free use.

RUN TIME:	8h	8.5h	5h
FLOOD/WARM WHITE COLOR TEMPERATURE: 4,000K			

The Dualie® 3AA Color-Rite® is an intrinsically safe, high performance, 3 AA battery powered flashlight that produces a bright, white light to see ahead of you. The flood beam uses a high output, warm white (4,000K) 90 CRI LED for true color recognition. It has opposing switches for easy user activation of desired function.

Body features a superior grip texture to provide a comfortable but slip resistant feel and is constructed of an engineered polymer resin that is virtually indestructible, shock resistant, non-conductive and light weight. The integrated, non-protruding spring loaded belt clip is contained within the body outline. So much power and technology in one place!

BATTERY: 3 "AA" alkaline or lithium

POLY MOUNT KIT

Shown with Dualie 2AA (not included) using adhesive base

Shown with Dualie 2AA (not included) using slot attachment

The Streamlight Poly Mount kit conveniently attaches a variety of Streamlight flashlights to a hardhat for hands-free use. It's a "no tools required" method to quickly and easily attach your flashlight to your hardhat and it's adjustable so you can aim the beam where you need it.

Poly Mount Kit includes:

Adhesive base to attach to side of hard hat
Mounting base that slides into the slot of hard hat

Bands for:

TL-RACKER®

The compact, lightweight all-in-one integrated shotgun forend light. Replace your weapon's forend with the TL-Racker featuring a bright 1,000 lumen LED light in a sleek design that eliminates the need for remote cords, reducing snag hazards. Its ergonomic design provides maximum grip and easy switch access for momentary and constant on. The elongated switch pad accommodates virtually any hand size. Uses two CR123A lithium batteries. Its customized optic produces a concentrated beam for multiple applications. Ideal for shotgun breaching, close quarter operations or elevating home defense options. IPX7-rated waterproof to 1 meter for 30 minutes.

SIDEWINDER...
THE **MOST VERSATILE**
MILITARY LIGHTS IN
THE WORLD

SIDEWINDER STALK®

Designed to minimize the number of illuminators and beacons an operator must carry, the low-profile Sidewinder Stalk provides ultimate maneuverability. Put light where you need it with multiple mounting options and a flexible stalk to aim the beam.

Features white, multi-colored and IR LEDs along with an IR/IFF beacon.

BATTERIES: (1) CR123A, (1) "AA" alkaline or (1) "AA" lithium
SIZE: 5.51" x .86" x 1.81" (14 x 2.18 x 4.60 cm)
WEIGHT: 3.20 oz (72.57g) with CR123A battery and Loop and Hook adapter; 2.88 oz (81.65g) with AA battery and Loop and Hook adapter
COLOR: Coyote

Thumb Screw
to lock into ARC rail slot

White, red, green,
blue and IR LEDs

Uses "AA" alkaline battery CR123A
(both included)

Also accepts"AA" lithium batteries
for extended operation in extreme
temperatures

Sidewinder Stalk does not need to
be removed from mounted position
in order to change batteries

Rotary mode selector switch
(White, red, green, blue and IR)

IR/IFF beacon

Flexible stalk to aim the beam

Push-button switch for on/off
and intensity control

IR/IFF beacon switch

SIDEWINDER® RESCUE

PM AIR WARRIOR APPROVED

A lightweight hands-free lighting tool with four different color LEDs, each with varying intensities for a wide variety of tasks. It features a flashing beacon that coupled with the "Slide-in-Place" diffuser, projects omni-directional light to signal for help. The integrated diffuser allows you to go from tight, focused beam to wide, soft beam. Accepts either two "AA" alkaline batteries or two "AA" lithium batteries for maximum versatility in the field. IPX7 waterproof to 1 meter for 30 minutes.

THE LIGHT SEEN IN
EVERY TOOL BOX,
IS THE LIGHT THAT CAN HELP YOU SEE ANYWHERE

STREAMLIGHT JR.® LED

This is a classic personal light featuring a 2 AA-sized aluminum body with non-slip knurled grip. It's brighter than most traditional 2AA flashlights, and it also has good beam distance capability. It's small enough to fit easily on your belt or tuck into a tool box when you go out on inspections and perform repairs.

By purchasing this product, you are helping to make a difference in the rebuilding of the lives of surviving families and affected co-workers of law enforcement officers killed in the line of duty. In addition to rebuilding lives, C.O.P.S. (Concerns of Police Survivors) provides training to law enforcement agencies on survivor victimization issues and educates the public of the need to support the law enforcement profession and its survivors. For more information, visit www.nationalcops.org.
